

I am an enthusiastic supporter of K-LOVE and am pleading with you to not replace it with an LPFM. The programming on K-LOVE is first-rate, positive and vital and I would hate to see it changed or made not available to the many listeners who count on it. We listeners depend on this type of broadcasting and we would be at a loss without K-LOVE. I often have K-LOVE on in the background while I work and it helps me tremendously. Our society is in need for more programming like what's on K-LOVE, spreading hope, peace and God's love. We don't need more stations that are loud & full of ads or ones that play music that is less than honorable. Our kids need to be exposed to music that is uplifting and positive. It's very important! Please do not force K-LOVE off the air or replace it by an LPFM. We love K-LOVE and wish to see it continue in its current form. I'm sure I speak for hundreds of thousands of listeners. Thanks for your consideration.
